
ARTICLE 7 – FACILITIES POLICY

Statement of Intent

CIC strives to provide its students with access to classroom, lab, student culinary centre, gymnasium and other facilities required for academic, extra-curricular, and student-life activities. Students acknowledge and agree that these facilities shall be utilized only with appropriate supervision from CIC faculty and CIC staff and students will not engage in any intentional, negligent, or reckless behavior that has the potential to expose themselves, their fellow classmates, staff or faculty to a heightened risk of danger or damage to the physical premises of CIC.

1. Policy

Any student or group that requires the use of classroom or other facilities for the purpose of organizing meetings on campus or otherwise must obtain prior permission and supervision of CIC staff.

Consequences for Breach of Policy

Students acting in contravention of this policy may be directed to the Principal or Designate who shall determine the appropriate consequence, which may include the disciplinary measures as set out in Article 16 herein. Further, students who have vandalized CIC property shall be subject to the assessment of an administrative fee in order to rectify the damage done to CIC facilities.

2. Policy

Non-residents are allowed in Residences during Visitor's hours and must sign in and remain in the Visitor's Lounge. Non-residents are not permitted to stay overnight in any CIC residence/homestay or take part in any meal-plan privileges.

For the purpose of this policy a current student from another CIC residence/homestay or off campus is considered a non-resident. A former CIC student is also considered a non-resident.

Consequences for Breach of Policy

CIC has zero tolerance for allowing non-residents into residences, as such students who enable non-residents to go beyond the visitors lounge will be subject to disciplinary measures as set out in Article 16 herein.

3. Termination of Residence Stay

A student who voluntarily terminates their status as a student at CIC will be required to immediately vacate the residence/homestay building within three (3) days after such registration ceases or as soon as possible if the circumstances warrant immediate removal. Students must vacate residence/homestay within three (3) days (or as soon as possible if the circumstances warrant immediate removal) after the following disciplinary actions have been taken by CIC:

- Eviction of a student from residence/homestay on the basis of an academic or conduct and in accordance with the disciplinary procedures under Article 16 herein;
- The expulsion of a student from CIC in accordance with the disciplinary procedures under Article 16 herein.
